

Modules mentioned in **Beyond The Web: Drupal Meets The Desktop (And Mobile)**.  
 Presented March 4, 2009 by Justin Miller of Code Sorcery Workshop, LLC at the  
 Spring 2009 Drupalcon in Washington, DC.

For more information, see: <http://codesorcery.net/dcdc>

Section	Module
<b>Putting Data In</b>	
Desktop Publishing	blogapi (core)
File Uploads	upload (core)
File Framework	<a href="http://drupal.org/project/fileframework">http://drupal.org/project/fileframework</a>
	<a href="http://drupal.org/project/bitcache">http://drupal.org/project/bitcache</a>
WebDAV	<a href="http://drupal.org/project/filesserver">http://drupal.org/project/filesserver</a>
	<a href="http://drupal.org/project/dav">http://drupal.org/project/dav</a>
	<a href="http://drupal.org/project/filerelationsserver">http://drupal.org/project/filerelationsserver</a>
	<a href="http://drupal.org/project/webdav">http://drupal.org/project/webdav</a>
<b>Getting Data Out</b>	
General Feed Needs	<a href="http://drupal.org/project/views">http://drupal.org/project/views</a>
	<a href="http://drupal.org/project/tokenauth">http://drupal.org/project/tokenauth</a>
Other Feed Needs	<a href="http://drupal.org/project/atom">http://drupal.org/project/atom</a>
	<a href="http://drupal.org/project/feed_path_publisher">http://drupal.org/project/feed_path_publisher</a>
Email	<a href="http://drupal.org/project/smtpl">http://drupal.org/project/smtpl</a>
Popular Formats	<a href="http://drupal.org/project/views_bonus">http://drupal.org/project/views_bonus</a>
	<a href="http://drupal.org/project/views_json">http://drupal.org/project/views_json</a>
	<a href="http://drupal.org/project/kml">http://drupal.org/project/kml</a>
Other Projects of Note	<a href="http://drupal.org/project/print">http://drupal.org/project/print</a>
	<a href="http://drupal.org/project/file_force">http://drupal.org/project/file_force</a>
	<a href="http://drupal.org/project/backup_migrate">http://drupal.org/project/backup_migrate</a>
<b>Authentication</b>	
OpenID & OAuth	openid (core)
	<a href="http://drupal.org/project/openid_provider">http://drupal.org/project/openid_provider</a>
	<a href="http://drupal.org/project/oauth">http://drupal.org/project/oauth</a>
LDAP	<a href="http://drupal.org/project/ldap_integration">http://drupal.org/project/ldap_integration</a>

Section	Module
	<a href="http://drupal.org/project/ldap_provisioning">http://drupal.org/project/ldap_provisioning</a>
HTTP	<a href="http://drupal.org/project/securesite">http://drupal.org/project/securesite</a>
	<a href="http://drupal.org/project/webserver_auth">http://drupal.org/project/webserver_auth</a>
	<a href="http://drupal.org/project/ip_login">http://drupal.org/project/ip_login</a>
	<a href="http://drupal.org/project/certificatelogin">http://drupal.org/project/certificatelogin</a>
<b>Advanced Interop</b>	
XML-RPC	core functionality (not a module)
Services	<a href="http://drupal.org/project/services">http://drupal.org/project/services</a>
	<a href="http://drupal.org/project/soap_server">http://drupal.org/project/soap_server</a>
	<a href="http://drupal.org/project/rest_server">http://drupal.org/project/rest_server</a>
	<a href="http://drupal.org/project/json_server">http://drupal.org/project/json_server</a>
